

EXTEND YOUR INFORMATION SECURITY REACH TO REMOVABLE MEDIA AND MOBILE DEVICES

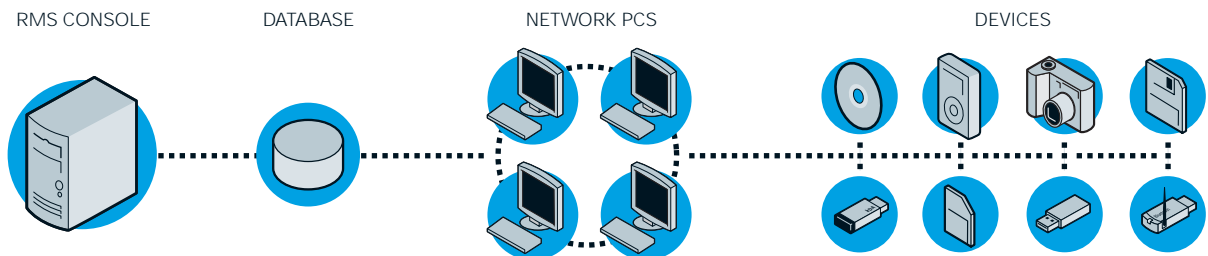

LyncRMS Discover & Audit – Removable Media provides organizations with a comprehensive solution to track the use of removable media devices that connect to an enterprise computer and log file transactions.

Expand the reach of your security solution to removable media devices:

- ⊕ Discover all removable media devices connecting to the network
- ⊕ Audit all hardware details of devices connecting
- ⊕ Create a log of all file transactions between the network and removable media devices.

HOW IT WORKS

DISCOVER DEVICES

AUDIT FILE TRANSACTIONS
